Profile

Recent graduate of Code Institute. Particularly interested in web applications development, using technologies such as Django, JavaScript, CSS, HTML5, Python, MySQL. I'm passionate about coding and constantly upskilling by working on various side projects. Technically minded, with 6yrs AV Warehouse/Technician experience and transitioning to a Web Developer.

Outside of work, I am a keen and passionate Musician. I have played Guitar and Drums for many years. Also have a keen interest in football and play for my local team.
